DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 23 is rejected under 35 U.S.C. 102(b) as being anticipated by DiCarlo (5,349,895).

DiCarlo discloses a bleed system with a passageway 173 establishing fluid communication between the chamber 169 and vent opening for venting gas from the chamber 169 and thereby tending to reduce gas pressure in the chamber 169, an adjustment mechanism 171 for selectively adjusting a size of the passageway 173 to change a rate of flow of gas from the chamber 169 to the vent opening, wherein the adjustment mechanism 171 is a conical plug movable within a conically-shaped bore.

Allowable Subject Matter

Claims 1-22 are allowed. The improvement comprises a bleed mechanism with a plurality of bleed flow paths of different lengths providing varying resistance to the flow of air and an adjustment mechanism for selectively adjusting a length of the path to change a rate of flow of gas from the chamber to the vent opening for the purposes of more accurately calibrating the bleed valve to obtain a desired cut-off speed.
